

Platform Screen Doors

Dependable detection switches

Industry Problem

Subject to demanding operation cycles, detection switches must perform dependably and comply with strict platform regulations.

BERNSTEIN Solution

Use a 'positive drive' limit switch (Bernstein **I88**) with 10 x 10⁶ operational life expectancy and zero halogen construction (UL94-V0).

Helps to...

- prevent disruption to the widespread operation of the network system

Limit Switches

I88

Euronorm standard switch to DIN EN 50047. Protection class IP65. Features hinged snap lid.
